## Projects

### SLO Hacks 2019

(Cal Poly SLO, CA (February 1, 2019 — February 3, 2019))

- Collaborated with three others to create a web-app platform called “Bandbase” that was built with Firebase, HTML, CSS, and JavaScript
- Assisted the frontend developers with the user-experience design
- Led as the sole backend developer connecting the client-side Javascript with Firebase

### CampPoly Hacks 2019

Cal Poly SLO, CA (January 18, 2018 — January 19, 2018)

- Developed the backend for the web-app “CaptionThis” from scratch in nodeJS and expressJS
- Guided two individuals with no experience in Angular, to them successfully designing the whole frontend in Angular and us winning the “Servant Leader Hack” Prize.
- Debugged 4 merge conflicts successfully in my first experience with version controllers

### Personal Website (<https://sullivanxiong.tech>)

Marysville, CA (July 2018 — Present)

- Designed my own website from scratch with HTML, CSS, JavaScript, and jQuery
- Hosted to the web using AWS and customized with my personal domain name.

---
